

# **International Journal of Condition Monitoring and Diagnostic Engineering Management (COMADEM)**

Dear Authors,

I would like to invite you to submit a paper to the International Journal of Condition Monitoring and Diagnostic Engineering Management (COMADEM), a peer-reviewed, open-access journal publishing original research papers and review articles in all areas of engineering and management.

This peer-reviewed internationally acclaimed professional-cum-learned journal was launched in 1998 to meet the needs of the global condition monitoring community. It is now published as an open access subscription-based journal. The International editorial board consists of prominent academics, consultants, engineers, scientists, technologists and management specialists representing a wide sector of the economy.

This leading edge technology management journal is interdisciplinary based and is totally dedicated to: Advanced Sensor Technology, Higher Education and Training, Health & Safety, Intelligent Manufacturing, Risk Management, Technology Management, Industrial Logistics, Industrial Tribology, Bio-medical Engineering, Reliability Centred Maintenance, Total Quality Management, Structural Health Monitoring, Advanced Signal Processing, Machinery/Process Health Monitoring, Industrial Asset Management and Energy/Environmental Management.

This journal is indexed in Elsevier Bibliography Index, British Library, etc.

The Editorial Board welcomes original and critically reviewed papers and case-studies from both academic and industrial researchers who are engaged in condition monitoring, diagnosis and prognosis of engineering and human assets. To submit your paper please visit our website [www.comadem.co.uk](http://www.comadem.co.uk) under the Journal section.

All papers which are published in this journal will be peer reviewed and will be freely available for the authors to download.

Please pass this information to your friends and colleagues.

We look-forward to hearing from you.

B.K.N. Rao

Editor-in-Chief
